

# PROSEED

The Honorable Alexandra Dunn  
Assistant Administrator, Office of Chemical Safety and Pollution Prevention  
Environmental Protection Agency  
1200 Pennsylvania Avenue, N.W.  
Washington, DC 20460

Proseed is a regional seed company that sells soybeans, corn, sunflowers, and canola in North Dakota, South Dakota, and Minnesota. We have 150 dealers in that territory.

About 45% of the soybeans we sell are XTEND soybeans. We absolutely need to have the dicamba option available for our customers to use in as a chemistry option. We need to have as many tools in the toolbox as we can get for controlling weeds.

We support the new XtendiMax registration.

Thank you for your consideration

Keith Peltier
